

## UTK 555

Silicon termination set for use in hazardous area.

Termination Set Ex

- Compact design
- Temperature resistant up to 200°C
- Quick and easy to assemble
- Applicable with different types of heating tapes
- Further sets available

### Description

The termination kits of the BEPS4-series are silicon-made termination parts which contains power supply, end seal, a special cable gland and various accessories. These termination kits can be used to connect the heating circuit directly in an Exe approved junction box e.g. JB 9000.

There is no separate supply cable needed. Because of the high temperature resistance up to 200 °C, heating cable types FSS.. are suitable as well as mid- & high temperature heating cable types FSR;FSU, FSS, EMTS, PHT,

### Technical Data

Temperature Resistant:	-60°C...200°C
Material:	Silicone
Length Connection Sleeve:	125 mm
Length End Seal:	66 mm

### Approval

ATEX, IECEX, EAC

### Further Information

Please consult the installation instructions!
